Loose is making more cash than ever out of his mines thus fall, than ever out of his mines thus fall, but he is quoted as having point blank refused to contribute to the republican campaign fund this year. He was overheard the other day consoling with Dan Jones, In the course of his remarks he said: "Why damn it, it's plain enough an't it? Can't you see it, huh? They don't want us, huh? The C. E. Loose marching club will be missed by the repubs this year, and Ed. will not allow his friends (?) to put him up again this year only for the fun of knocking him down as they did last year. But the repulse will miss his cash more than anything else.

RESIDENTS of Provo were surprised this morning on waking up to find the ground covered with about two inches of snow. The m untains toward the top were covered with a layer of snow fully six inches deep.

Last night was extremely cold and today the ground is very wet and mud-dy from the snow storm, but no dam-age so far has been done to the fruit or other crops and none will result unless a heavy frost falls tonight.

REPUBLICANS in and about Provo are blue. Many of them have been heard to predict lately that not only the ter-ritory will go democratic but that even Provo city which had a seventy-eight republican majority last fall will elect a full democratic ticket this fail. THE great steal from Salt Lake city and county by Hayken, agent for Andrews & Co., the furniture dealers who supplied the furniture for the joint city and county building has furnished column after column of racy reading matter for the Sult Lake dales. that some members of the ex-county

all of the last set of Salt Lake county

PLAYED WITH THE BULL'S HEAD. The Penalties Attached to a Hand In Pokes

Held Against Five Kings. Some varieties of cards have the pio ture of a bull's head upon the fifty-third card, which is known as the "joker," and largely affected by progressive euchre players when they are working assiduously for plated watch charms and cotton lace collars. It is seldow

used in a game of poker, but in some sections it is left in the deck upon such occasions, and when a man holds it he as any other card in his band. The other night a party of jovial spirits sat down to while away a few hours at the seductive pastime, and when some one asked what kind of poker should be played another suggested that "every thing should go." In the parlance of poker this means a great deal. A player poker this heart's content provided lowed on these tickets, nor can extensive the best pokers of the beauty of the pokers of t he is not discovered, and as all the players were equally well equipped

During the game one of the players excused himself for a moment on apparently proper plea and left the room. While he was absent he secured a new deck of cards and arranged them so that the person who dealt them would receive four aces, while the man to his left would get four kings. In his hurry he failed to remove the bull's head. Returning to the room, he took his seat. and winking to the man next to him, whose deal it happened to be, he deftiy slipped him the "cold deck." The dealer, having confidence in his friend, took the pack and dealt out the hands. Of course he got the four aces. The betting was confined to him and the man to his left, and at last, when each had his eash and all his worldly possessions in the way of jewelry and wearing apparel staked on the result, the hands were

The dealer gladly announced the proprietorship of four aces and reached out for the plunder. The other man stop-

ped him instanter. "Why, you can't beat four aces!" ejaculated the dealer. "Oh, yes, I can," said his opponent. "I've got four kings and the bull's head, and that makes five. That means that I take the pot and all the rest of your clothes, and that every time I meet you on the screet in the next six months you'll have to give me a \$5
